

Anandakrishnan C.K

MERN STACK DEVELOPER

As a self-taught MERN stack developer, I excel in designing responsive and intuitive web applications. I thrive in collaborative environments, bringing a proactive problem-solving approach and a commitment to continuous learning. I am enthusiastic about leveraging my skills to deliver high-quality solutions and drive innovation in web development. My self-motivation and dedication to mastering new technologies make me a valuable asset to any team, where I am poised to contribute effectively and help achieve project goals.

EDUCATION

Bachelor Of Technology

Adi Shankara Institute of Engineering And Technology, Kalady

2019 - 2023

Courses

- ELECTRONICS AND COMMUNICATION

CLASS 12

Kendriya Vidyalaya INS Dronacharya, Kochi

2018 - 2019

Courses

- Computer Science

CLASS 10

ST. Julianas Public school, Kochi

2016 - 2017

PERSONAL PROJECT

Ecommerce Web Application

built with the MERN stack (MongoDB, Express.js, React, Node.js), features role-based authentication for buyers, sellers, and admins. Buyers can add items to their wishlist and cart, and place orders. Sellers can manage product listings by adding, updating, and deleting items. Admins oversee all activities. The application ensures a dynamic and interactive shopping experience with efficient data handling and secure operations.

User Management System

user management system will involve creating a robust backend API with Node.js and Express.js, integrating with MongoDB for data storage, implementing user authentication and authorization using JWT and role-based access control, and developing a frontend interface with React to interact with the backend API. Ensure to follow best practices for security, scalability, and maintainability throughout the development
